About This Game

TO SUMMARIZE, WILD LIGHT IS:

- --Hardcore, open-world, survival game--

Survive as many days as possible, and each death means a new, randomly generated world and play-through.

- --Advanced crafting system--

Every piece of crafted equipment has random stats. Hundreds of craftable items.

- --Randomly generated invasions--

Prepare for invasions that occur every night. Each invasion is a random selection of enemies with different weapons and stats, forcing the player to adapt.

- **--Procedural generated islands--**

Depending on the specified world size, a number of islands are generated with varied terrain, loot, enemies, and special locations.

- **--Building system--**

Build walls, traps, turrets, and other defenses in preparation for the night.

- **--Hunger--**

Plant crops, hunt for animals, and forage to stave off your hunger.

- **--Character selection--**

Choose from over 50 unlockable characters, each with different stats and special equipment.

- **--Character progression--**

Card-based perks, where on each level-up the player chooses one of three special abilities. Perks are dealt differently each playthrough. Stats naturally develop based on use.

- **--Explore and scavenge--**

Discover new islands, treasure, and crafting possibilities.

- **--Equipment--**

Items have randomly generated stats and abilities. When crafting items, you will rarely get the same result twice.
